

Recreate a Sign-Up Page from for this UI Mockup (HTML & CSS Only)

Submission: create a repository on github and invite me using ydiasniyonshuti@yahoo.fr

Deadline: 04/02/2026 11:00 AM

Mpuza

Kigali, Rwanda

Objective

The goal of this assignment is to help you learn how to translate a UI/UX mockup into real code using HTML and CSS only.

You will focus on structure, layout, spacing, typography, and visual accuracy, not functionality.

Task Description

You are provided with a sign-up page mockup (image or Figma design).

Your task is to recreate the visual design of the sign-up page as accurately as possible using:

- HTML for structure
- CSS for styling

⚠ Exact pixel perfection is not required, but the layout and visual structure must clearly match the mockup
